Coverage is the fraction of human-bad outputs flagged. False failure rate is the fraction of human-good outputs flagged. Alignment is their harmonic combination with 1 – false failure rate. n/a means the rate cannot be determined from this snapshot.

Responses and human feedback

Response 1 Good

```
Make every study session shine with the LuminaFold Desk Lamp. Three adjustable brightness settings let you
choose the light that suits your task, while the foldable arm makes it easy to tuck away between classes.
Simply connect it to a USB-C power source for a practical companion on your dorm desk.
```

Model rationale

```
The description highlights study-friendly benefits and USB-C power without adding unsupported features.
